CITIES SAVE THE WORLD

LET'S REINVENT PLANNING

Kigali is the most innovative city in Africa.

Antoine Muhirwa, Rwanda

ISOCARP2015 CONGRESS
19/10/2015 – 23/10/2015

The ISOCARP2015 congress comes at a time of unprecedented global urbanization. Voices from the global level down to the ground - in both the public and private sector - are calling for a 'planning' approach to address the complex challenges that this brings. The congress is therefore an opportune time to open up to the world, work together and learn from each other. It is being hosted by The Netherlands, Belgium and Germany. Everyone who cares about the city is welcome to join the discussions on this platform or to join us in 2015!
